Preparations are being made to begin development work on the Bob Tail property soon. Two gentlemen from Philadelphia are in charge.

Early Saturday evening the sheriff and one of his deputies from Taos county drove into town, and on approaching the Main street, just in front of Gottlieb & Uhlfelder's store, they met one, John Flurry manager of the Flurry Brothers Amusement Company, who had just arrived in town a few minutes previous, and with their guns drawn, ordered him to halt, after which Mr. Flurry was ordered into the buggy. They drove down to the Restaurant for supper, intending to leave for Taos, but some of the citizens saw the action of the sheriff, and after investigating found that the sheriff had made the mistake of arresting Mr. Flurry out of his own county without having his papers certified to. The papers that the Justice of the Peace had given the sheriff also proved not to be legal as they were not drawn up right. Justice Funk had the sheriff and his deputies arrested and each were fined \$100 and costs. They appealed to the District Court after which they went back to Taos without their man. —Red River Prospector.

To Improve Place of Business.

On account of the growth of business in Cimarron, Messrs. Duckworth & Marling, proprietors of the Oxford hotel, are compelled to make an extensive addition to their already commodious place of business. The new addition will be 25x60 feet, two stories in height and the ground floor will be divided into three sections, viz: an office and writing room to be furnished with every needed accommodation for the traveling public; the second will be a commodious dining room, well lighted and ventilated, and equipped with electric fans, private booths, etc.; the third will be a well appointed sample room for the convenience of traveling salesmen.

The second floor will be devoted entirely to sleeping apartments and a modern bathroom will be installed.

Messrs. Duckworth & Marling believe that with the installation of these improvements, they will be in a position to handle their constantly increasing business which has outgrown their present accommodations. The patrons of the Oxford all have a good word to say for the house and state that they are well pleased with the service and cuisine.

NEW BALL PARK BEING

LAI D OUT

The Cimarron Townsite company has started work laying out a new ball park, which, when completed, will be one of the best equipped in this section. The original plat covers an entire block and plowing preparatory to grading was started June 21. The field will not only be plowed and graded, but sand will be used in abundance, making the lot springy and playable.

No bleachers will be constructed, but a grandstand capable of seating five hundred persons will be built. A board fence will entirely enclose the park, which will be somewhat of a disappointment to the young fans. Other small buildings will be erected, such as dressing rooms, ticket office, etc.

The Wonder store will probably have the refreshment privilege and will erect a building for that purpose.

The local base ball fans are jubilant over the prospect of such a fine ball park being located here and as soon as the field is in shape, will arrange for a park warming and a big time generally.

It is to be hoped that the local ball team will appreciate what is being done and will give the various visiting teams a run for their money.

Famous in Switzerland.

One of the historic bells in Switzerland is the silver bell in the minister at Bern. It rang "for the service of God, the festivals of state and the execution of the evil doer." When the forces of the young French republic captured Bern in 1798, the citizens painted it a funeral black, and under this disguise it escaped from the rapacity of the Gauls.—Sunday Magazine.

Abnormal Appetite.

The sow that eats her pigs has an abnormal appetite. It is believed by hog feeders that this is caused by a deficiency in the food. A ration of corn meal with nothing to offset the high starchy proportion does not give the substances that the sow needs for the building up of her body. She seeks to satisfy the abnormal craving and the pigs suffer.
